To Our Patients:

The goal of Partners in Obstetrics & Gynecology has always been to provide the best care for our patients. Within the last few years, health care reform has become a topic that both physicians and patients have to address.

In order to continue the excellent care given to our patients and maintain the efficiencies required to be successful in this new environment, we have formed an affiliation with another group of physicians, Broadway Ob/Gyn, Bahram Shah-Hosseini, MD, David Carceiri, M.D., and Michael Coppa, M.D. These doctors are people we have known for years, and for whom we have great respect.

This practice has a philosophy and practice pattern very similar to our own. We have set up an ongoing system of cross coverage for evenings and weekends. A physician from the above-mentioned practice might attend to our deliveries and hospital care. Please be assured that your medical record will be available to the physician managing your labor, delivery and care.

If you have any questions, please speak with one of our physicians.

Thank you,

Partners in Obstetrics & Gynecology
